Chiropractic Future Strategic Plan Announces Student Travel Stipends for ACC-RAC Conference 2024

Chiropractic Future is thrilled to announce the recipients of the esteemed student travel stipends for the upcoming ACC-RAC Conference in 2024. This initiative underscores our commitment to nurturing the next generation of chiropractic professionals and highlights the exceptional achievements of these dedicated students.

A Platform for Future Chiropractic Leaders

Set against the backdrop of the scenic San Diego, California, from March 21-23, 2024, the ACC-RAC conference will serve as a pivotal platform for these talented individuals. Here, they will present their groundbreaking research, engage with global chiropractic professionals, and delve into the latest advancements in the field. This opportunity transcends academic recognition, offering an enriching experience that aligns with their deep commitment to chiropractic care.

Empowering Students Through Support

Understanding the importance of fostering academic and professional growth, Chiropractic Future's travel stipends cover travel and lodging expenses. This initiative is designed to eliminate financial barriers, enabling these passionate students to concentrate on their research and its contribution to the chiropractic profession.

Introducing the Recipients

We proudly present the recipients, whose research and dedication exemplify the future of chiropractic excellence:

George Zachary, Southern California University of Health Sciences, California

Abstract: Trends in Utilization of Non-Pharmacological Pain Therapies under Medicare

816-490-6650

PO Box 707, Molalla, OR 97038

ben@chiropracticfuture.org

Abstract: Mapping Chiropractic Services within US Federally Qualified Health Centers

Rachel Torrence, Texas Chiropractic College, Texas

Abstract: Comparing Balance and Kinematic Effects of Standard Athletic Taping of the Ankle during Jumping Activities

Carol Longo, Texas Chiropractic College, Texas

Abstract: Exploring the Acute Effects of Spinal Manipulation on Handgrip Strength and Reaction Time Relative to Anxiety and Neck Pain Level

Dr. Parth Trivedi, Life Chiropractic College West, California

Abstract: Applications of Eye-Tracking Technology in Chiropractic Current Evidence and Example Data

About the Chiropractic Future Strategic Plan

In November of 2019, a visionary idea was born: Build a strategic plan which will lead the entire chiropractic profession into an essential and thriving future. In August 2020, that visionary idea became The Chiropractic Future Visioning and Strategic Planning Project. Massive quantitative and qualitative data gathering from all corners of the profession successfully identified common goals and priorities. Intensely spirited and collaborative workgroup sessions, representing the breadth of the profession, accomplished the heavy lift of creating an actionable, measurable plan. Eighteen months after the idea was born, a historic 2021 - 2026 strategic plan has been developed.
