

BETTER ACCESS. BETTER REIMBURSEMENT. BRIGHTER FUTURE.

Who We Are

Chiropractic Future Strategic Plan (CFSP) is an advocacy group with some of the profession's most influential volunteers focused on increasing access to chiropractic care and fighting for better reimbursement. By leveraging technology, research, and our collective expertise, we strive to create a sustainable future for chiropractors.

There has never been an effort of this magnitude that brings all chiropractors together for a common cause. We invite you to join the effort and contribute as major or recurring donors, ensuring the success of our initiatives.

Your support will enable us to drive positive change, benefiting patients and practitioners. Together, we can overcome the challenges the current healthcare system poses and secure a brighter future for chiropractors.

Our Focus

- ✓ Technology
- ✓ Research
- ✓ Legislation

Why Support Chiropractic Future?

- ✓ **First and only** chiropractic Super PAC
- ✓ Developed the first **national healthcare data lake** for the chiropractic profession.
- ✓ Developed the first **reimbursement dashboard** to track state and national reimbursement trends.

SUPPORT THE FUTURE OF CHIROPRACTIC

**Learn
More**

Join a Workgroup:

The **ChiroTech** workgroup provides the data needed to advocate for better access and reimbursement, which leads to a brighter future.

The **Research** workgroup provides doctors and leaders with the information they need to challenge and change policy limiting access and reimbursements for chiropractic services.

The **Fundraising** workgroup is the engine that drives sustainability for all strategic plan efforts.

The **Government Affairs** workgroup provides resources and facilitates collaboration to support favorable healthcare policy.

The **Reimbursement** workgroup addresses challenges related to chiropractic reimbursement, including issues with health insurance carriers, helping patients understand their coverage, removing barriers to care, and combating poor reimbursement practices that hinder access to chiropractic services.

The **BAC-PAC** workgroup allows us to influence federal elections with donations from within and outside the profession (including corporations).
